5 of 5 review helpful Solid intro to science and ethics of archaeology By Michael Willers Brian Fagan is a lively writer with a clear enthusiasm for his profession an enthusiasm that is in fact quite contagious The scientific progression of archaeology has historically taken a somewhat circuitous course with different theories and methods competing for the limelight With this is mind one can understand what a diffic Archaeology A Brief Introduction nbsp

10th edition is an introduction to the fundamental principles of method and theory in archaeology while exposing students to archaeology as a career. The text begins by covering the goals of archaeology, going on to consider the basic concepts of culture, time, and space, and discussing the finding and excavation of archaeological sites. The author provides a distinct emphasis on the ethics behind. About the Author: Brian Fagan is a leading archaeological writer and internationally recognized authority on world
