The phenomenal growth of Pentecostalism and evangelicalism around the world in recent decades has forced us to rethink what it means to be religious and what it means to be global. The success of these religious movements has revealed tensions and resonances between the public and the private, the religious and the cultural, and the local and the global. This volume provides a wide ranging and accessible as well as ethnographically rich perspective. "Makes a significant contribution to the literature on Pentecostalism above all by gathering together the work of such high quality researchers and offering a context in which to think across their scholarship in one place." John Burdick Syracuse
