gaulle an outline of french civilization volume 43 of american university studies From Gaul to De Gaulle: An Outline of French Civilization (American University Studies):

1 of 2 review helpful the info gets disjointed By Customer The info seems to run together at times which can be rather confusing I needed this for a course So it served it s purpose This text is a concise publication on France the land its people and its great contribution to world culture It contains a chronological account of the most important events which have shaped France and the French society in the course of centuries and a compact overview of the country rsquo s arts and letters It is a guide to places of interest historic sites famous monuments and art treasures and provides essential information for all those interested in France laquo Such a substantial and useful book it does indeed fulfill the need I pointed out raquo Laurence Wylie Harvard University laquo Most histories of France in French assume prior knowledge that American students lack Wagner has made her account
