By Brian M. Fagan, Chris Scarre : Ancient Civilizations ancient civilizations in general ancient civilizations arose all over the world find out about these cultures and their peoples in a survey of to borrow from dr seuss's book title quot;oh the places you'll go heres a coming attraction of the people places ideas and things coming at you your 32 million Ancient Civilizations:

3 of 3 review helpful very inadequate graphics a major deficiency By Igor Dumbadze We used this book as the

textbook for Origins Of Civilizations anthropology course Well written very clear and quite readable I downgraded the book to 3 stars because of the absolutely inadequate maps and illustrations A major distraction from understanding the text maps were too small and in black and white so that de Ancient Civilizations offers a comprehensive and straightforward account of the world rsquo s first civilizations and how they were discovered drawing on many avenues of inquiry including archaeological excavations surveys laboratory work highly specialized scientific investigations and both historical and ethnohistorical records This book covers the earliest civilizations and the great powers in the Near East moving on to the first Aegean civilization About the Author CHRIS SCARRE is an archaeologist specializing in the prehistory of Europe and the Mediterranean with a particular interest in the archaeology of Atlantic fa ccedil ade He has participated in fieldwork projects in Britain France Greece and
