4 of 4 review helpful a poor job By EdAnthro I had high hopes for this book but was sorely disappointed It was shoddily produced with errors on practically every page and contains several assertions both ethnographic and methodological that are just factually WRONG I chose it for a course in Human Sexuality and both I and the students regretted it For a comparable book that is both more scholarly and more interesti In the current fast paced information age implicit and explicit images and messages relating to sex and sexuality abound But sex and sexuality often are misconstrued and misunderstood by those who perceive them through the narrow lens of their own place and time Middleton s fundamentally anthropological treatment explores universal human sexuality in conjunction with its local manifestations in specific cultural contexts He distributes many case studies throughout t From the Publisher Title of related interest from Waveland Press Middleton The Challenge of Human Diversity Mirrors Bridges and Chasms Third Edition ISBN 9781577666752
