By Darren Naish, Paul Barrett : Dinosaurs: How They Lived and Evolved dinosaurs lived and evolved for over 185 million years until they became extinct the cause has not been proven yet but many believe that an asteroid over 9 miles dinosaurs ruled the earth for 135 million years there were many types of dinosaurs in all shapes and sizes
Dinosaurs: How They Lived and Evolved:

6 of 6 review helpful An excellent book for adults interested in dinosaurs By Leathem This is a great book It has many up to date facts about dinosaurs presented in a very readable way It doesn't gloss over the science but covers it in a

completely understandable and well organized way There are many excellent illustrations as well I have one other book that is over 1100 pages yet this much shorter book is far more use Dinosaurs are one of the most spectacular groups of animals that have ever existed Many were fantastic bizarre creatures that still capture our imagination the super predator Tyrannosaurus the plate backed Stegosaurus and the long necked long tailed Diplodocus Dinosaurs The Ultimate Guide to How They Lived taps into our enduring interest in dinosaurs shedding new light on different dinosaur groups Leading paleontology experts Darren QUARTERLY REVIEW OF BIOLOGY Finally a modern intelligent trade book on dinosaurs for thoughtful readers Dinosaurs How They Lived and Evolved is written by two authoritative specialists and is beautifully produced with full color illustratio
