45 of 46 review helpful Same Book As Underground Published In 2005 By Remy Chevalier What this title and description fails to tell you something I only realized after buying the book is that it is a word for word reprint not updated or revised of Underground published by Disinformation Books back in 2005 So if you already own the original unless you desire both editions for some reason pick another great Adventure Previously published as Underground Where did modern civilization begin What lies beneath the waves Do myths describe interstellar impact How d they lift that stone Was the Ark of the Covenant a mechanical device Were there survivors of an Atlantean catastrophe Who really discovered the New World Hidden history continues to fascinate an ever wider audience In this massive compendium editor Preston Peet brings together an all star cas An excellent briefing on the genre and its complexities Fortean Times About the Author The editor of Under The Influence The Disinformation Guide to Drugs Preston Peet is a writer editor photo
